The screenshot shows a virtual machine interface titled "Ubuntu [Running] - Oracle VM VirtualBox". The main area displays a terminal session for user "tanmay" at host "tanmay-VirtualBox". The terminal prompt is "~ /Downloads/Main_Directory/5". The user enters several commands: "cd ..", "ls -la", "cd 5", and "bash execute_me.sh". The output of "ls -la" shows two directories, each containing files like "compare_me1.txt", "compare_me2.txt", "execute_me.sh", and "reverse_me.txt". The output of "bash execute_me.sh" shows directory listings for both subdirectories. On the left side of the terminal window, there are icons for various applications: a blue circle with a white envelope, a folder icon, a yellow circle with a black dot, a document icon, an orange shopping bag icon, a blue question mark icon, and a grey terminal icon. At the bottom left, there is a grid of six dots. The top right corner of the terminal window has standard window controls (minimize, maximize, close) and system status icons (network, volume, power).
